

# Retrospective Audit

**Pharmacy Audits & Management Prioritizing Corrective Actions Automatically**

We perform retrospective pharmacy claims audits to ensure compliance with PBM contracts. These audits fall under the accounting rules for attestations. Pro Pharma is sensitive to conflicts over audits and makes every effort to identify areas requiring validation and to work with all parties to ensure contract compliance.

***Pro Pharma's digital approach to Pharmacy Claims Audits:***

- *Are performed on 100% of the pharmacy claims*
- *Are fast, efficient and affordable*
- *Identifies the outlier physicians and pharmacies*
- *Provide supporting information to expedite the process*

These audits review invoices along with the pharmacy claims over the desired audit period. These screens also focus on the providers, physicians and pharmacies responsible for rejected claims that did not meet contract requirements, or for which continued monitoring is recommended.

***Fundamental Areas for Audit:***

- *Formulary Compliance*
- *Eligibility*
- *Pricing/MAC Compliance*
- *Invalid Claims*
- *Excluded Benefits*

ANALYTICS

# Analytics at Your Fingertips

**With the right tools - Anyone can be an Analyst**

Having data at your fingertips is a management imperative. Having analytics that are easy to use and interpret is a crucial management tool.

While big data employs specialized mathematical tools, the technology marketplace has moved much of the simple analyses to reporting that can be used on the desktop or mobile environments.

Pro Pharma and ProData Analytics have developed tools that will bring analytics to the manager who is not an analyst. Many of these tools rapidly, efficiently, and graphically utilize integrated claims data. An extensive list of filters makes it easy to customize your analyses.

## *The objective to analytics:*

- *Identify cost and quality drivers*
- *Make predictions*
- *Develop action plans*
- *Trend results*

## About Pro Pharma & ProData Analytics

**Pro Pharma Pharmaceutical Consultants, Inc.** is a multi-service, woman owned, privately held consulting firm offering a vast portfolio of services to public and private entities including self-insured employers, unions, public employers, for-profit hospitals and integrated health networks, health care insurance companies, worker's compensation insurers, small-to-medium sized HMO's, and physician groups.

Established in 1986, Pro Pharma's consulting services are grounded in the use of data and the communication of that information to define benefit trends, drivers and other analytical indicators.

Pro Pharma has developed IT capabilities over the last 30 years that focus on Standardization and Analysis of Integrated Data Sets (i.e., Medical Encounter, Member, Provider, Pharmacy Claim detail, etc.), for audit work, oversight and management of PBMs and for control of specialty medical costs and programs.

**Pro Data Analytics** was formed to focus on data analytics in all industries. ProData has significant expertise in Programming, Systems Analysis, and Data Analysis.

Pro Data Analytics has been supporting Clients who need:

- Assistance building their own analytics internally
- A bridge analytics to outsource while developing inhouse
- Back Office Support (hosting) for those clients who require more comprehensive "just in time" support
- Specific one-time analyses that can be addressed quickly
