Request For Proposal (RFP) Management

Vendor Proposals Evaluated Rapidly & Efficiently in a Customized Document-Linking Program

- Do you want to take the RFP process out of the "dark ages" and into the electronic and web-based world?
- Are You Tired of Reading Dozens of Bulky 3-Ring Binders?
- Is Your RFP Process Labor-Intensive and Time-Consuming?

Our proprietary templates allow you to focus on your organizational priorities. And our weighted vendor scoring methodology simplifies the final decision-making process easier than ever before. We will manage the RFP process from the first compilation of potential vendors through the final selection of the PBM vendor via email and web-based communications.

Pro Pharma has automated the RFP process with the following key features:

- *Viewing of several vendor responses in head-to-head*
- *Cost accounting for comparison of vendor financial submissions*
- *Customized to your needs and priorities*
- *Comparison viewed electronically or in print format*
- *Key word search capability*

ANALYTICS

Analytics at Your Fingertips

With the right tools - Anyone can be an Analyst

Having data at your fingertips is a management imperative. Having analytics that are easy to use and interpret is a crucial management tool.

While big data employs specialized mathematical tools, the technology marketplace has moved much of the simple analyses to reporting that can be used on the desktop or mobile environments.

Pro Pharma and ProData Analytics have developed tools that will bring analytics to the manager who is not an analyst. Many of these tools rapidly, efficiently, and graphically utilize integrated claims data. An extensive list of filters makes it easy to customize your analyses.

The objective to analytics:

- *Identify cost and quality drivers*
- *Make predictions*
- *Develop action plans*
- *Trend results*

About Pro Pharma & ProData Analytics

Pro Pharma Pharmaceutical Consultants, Inc. is a multi-service, woman owned, privately held consulting firm offering a vast portfolio of services to public and private entities including self-insured employers, unions, public employers, for-profit hospitals and integrated health networks, health care insurance companies, worker's compensation insurers, small-to-medium sized HMO's, and physician groups.

Established in 1986, Pro Pharma's consulting services are grounded in the use of data and the communication of that information to define benefit trends, drivers and other analytical indicators.

Pro Pharma has developed IT capabilities over the last 30 years that focus on Standardization and Analysis of Integrated Data Sets (i.e., Medical Encounter, Member, Provider, Pharmacy Claim detail, etc.), for audit work, oversight and management of PBMs and for control of specialty medical costs and programs.

Pro Data Analytics was formed to focus on data analytics in all industries. ProData has significant expertise in Programming, Systems Analysis, and Data Analysis.

Pro Data Analytics has been supporting Clients who need:

- Assistance building their own analytics internally
- A bridge analytics to outsource while developing inhouse
- Back Office Support (hosting) for those clients who require more comprehensive "just in time" support
- Specific one-time analyses that can be addressed quickly
